A motion was made by Mr. MacLennan, second by Mr. Schreppler to impose a final denial on the applications of Christopher Bernard, Arthur Romero and Christopher Heller. The motion carried unanimously.

### **Review & Discussion of Regulations**

Mr. Nutter, an attorney retained by DuPont addressed the Board regarding his clients concern over the potential striking of regulation 10.1.9 which notices § 1419(a)(1)a. Mr. Nutter feels that striking this regulation would prohibit trained personnel from working on their proprietary equipment. Mr. MacLennan stated that over time the regulation was “lost in translation” and does not necessarily need to be stricken, just changed to be more specific as was the original intent. Mr. Nutter agreed that it needs to be amended to better reflect the statute and that striking regulation 10.1.9 would not provide notice of the statute in place. Mr. Hartley stated that the intent was to allow competent, DAPE licensed engineers to use their license to work on specific equipment only; to do their job and hire qualified people to do the same. Mr. Maloney advised Mr. Nutter to draft proposed language to present to the Board at the next meeting for their review and further discussion. Mr. Nutter indicated he would do that, and thanked the Board for their time and consideration in the manner.
